---

## PROFILE SUMMARY

To build upon and enhance my professional skills in a reputed and dynamic organization that gives me the opportunity to evolve in a professional manner.

---

## PROJECTS

### HOSTEL MANAGEMENT SYSTEM

**Tech Skills** – JavaScript, HTML, CSS, React Js, Node Js, Express Js, Mongo DB,

**Project Overview:** Developed a full-stack **Hostel Management System** using the **MERN stack (MongoDB, Express.js, React.js, Node.js)**. This web application streamlines hostel administration by providing role-based dashboards for **Admin**, **Employee**, and **Student** users, allowing efficient management of student admissions, room allocations, fees, and other hostel-related processes. The system also integrates payment functionality via **Razorpay** to handle student admission fees securely

---

## EDUCATION

**BSC** – Bachelor Of Computer Science

Don Bosco College, Yelagiri Hills (2021-2024), with Percentage – 85.2%

---

## CERTIFICATION

- SOFTWARE DEVELOPMENT - React JS and Node JS
-
